

Goals and plans as a senator at UPOL, during (2026-2029)

Prof. Zhivorad Tomovski

- As a senator, (if elected) I will perform the tasks within my competence in accordance with the law, the Statute of UPOL and other acts of the University.
- I will advocate for unwavering strong university leadership in the processes of institutional planning and budget development, development of educational programs, standards or policies regarding the preparation and success of students and the management structures of the areas and universities.
- I will advocate for the proper adoption of decisions, regulations, guidelines, conclusions, recommendations and general acts in accordance with the Law on Higher Education, as well as other acts in accordance with the law for which I am authorized by an act of the University.
- To take positions and adopt conclusions on issues of common interest of the units related to higher education, scientific and research activity. So, as a senator, I will propose expanding cooperation with other Balkan countries such as Macedonia, Romania, Greece, Cyprus, ... etc. at the educational and scientific level, through the Erasmus and GACR programs.
- In accordance with the Law on Higher Education and Science, I will contribute to an objective secret ballot for the election (non-election) of a professor from among the proposed candidates by the relevant faculty senate.
- I will advocate for data-based decision-making at the faculty levels, listening to students from all units. I will support the recruitment of quality staff, in accordance with the selection criteria.
